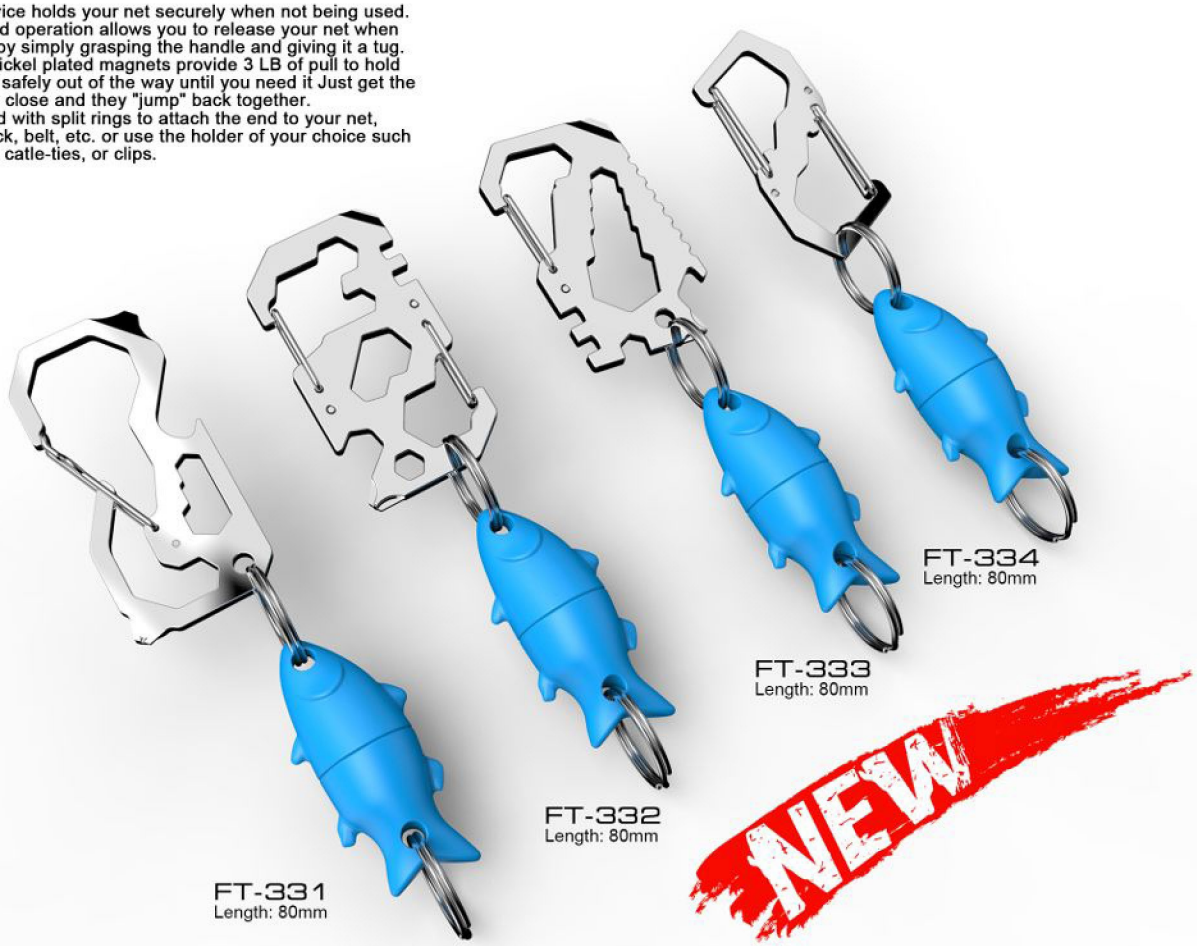
Magnetic Release

1.This Device holds your net securely when not being used.
2.One hand operation allows you to release your net when needed by simply grasping the handle and giving it a tug.
3.Strong nickel plated magnets provide 3 LB of pull to hold your net safely out of the way until you need it Just get the magnets close and they "jump" back together.
4.Equipped with split rings to attach the end to your net, vest, pack, belt, etc. or use the holder of your choice such as cords catle-ties, or clips.



Damascus Steel Bottle Opener

HANDMADE DAMASCUS STEEL BLADE
- Made of 256 layers of Damascus steel and hardened to 56-60HRC.

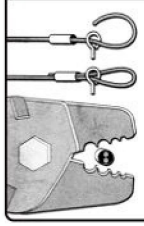
CRIMPING SINGLE-BARREL GRAND SLAM ALUMINUM SLEEVES



Thread mono through both the sleeve and the part being connected.

Pass the mono back through the sleeve to create a loop; align mono inside the sleeve.

Firmly crimp the sleeve and mono using a pair of crimping pliers. Two side-by-side compressions may be necessary if the sleeve is longer than the width of the crimping tool.

FILLET KNIFE

-High grade German stainless steel coated with DuPont Teflon
-Fillet knife and bloodline remover in one tool
-Ergonomic comfort none slip handle
-Includes rigid safety blade protector

NEW

MULTI-FUNCTIONS

This 6.5" Knife with spoon is a great choice for pro anglers.
The ultra sharp knife glides effortlessly through the fish and the spoon removes the bloodline.
Easy and fast! The blade is made with high grade German stainless steel coasted with
DuPont Teflon which adds corrosion resistance and allows the blade to slide effortlessly.
The handle features an ergonomic comfort design with durable polypropylene with soft,
no-slip grip.Also includes a durable, rigid safety sheath with thumb lock and line cutting channel.

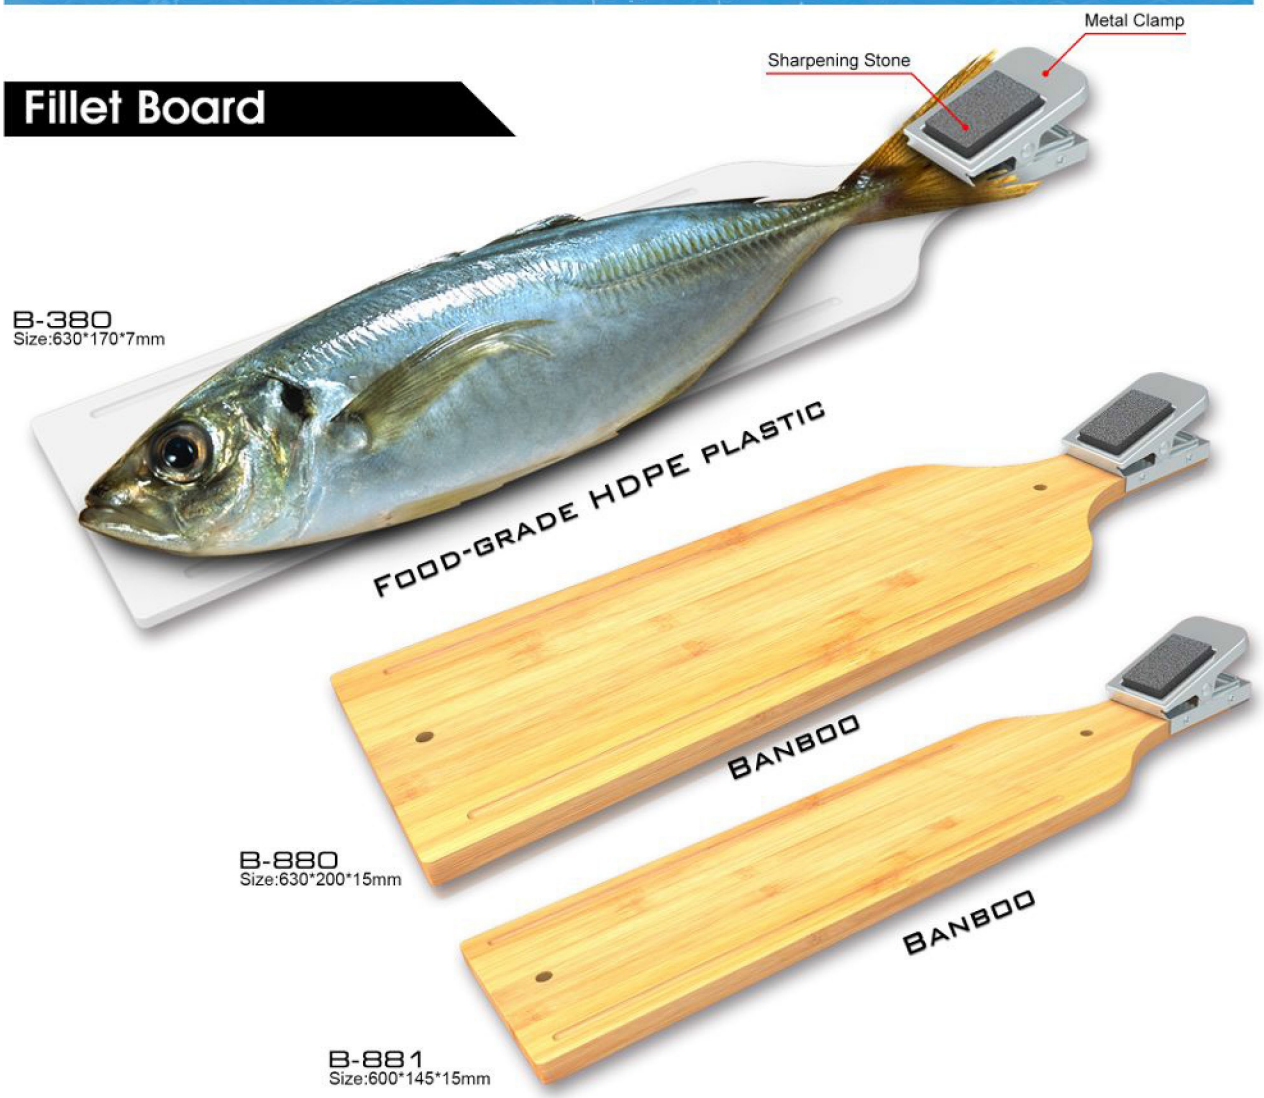
Fillet Board



CUTTING BOARD

Made of thermal plastic rubber to reduce board movement on the bench.
The silicone coating on both the handle side and opposite end does a very good job of creating a non-skid surface to cut on.

Smokeless BBQ Grill

Multi-functions

By changing accessories, it can meet different requirements of different food, realizing various functions.

Fast

With global exclusive patent of rotary fire, charcoal can be ignited within a short time. Food can be cooked quickly with fiercer firepowe

Easy Cleaning

The detachable structure makes cleaning much easier

GB-288

NEW

GB-289

GB-287

Smokeless

Original structural design ensures that no oil would drip into the charcoal. All the grease is received by the oil-receiving tray. No smoke and bad smell are produced.

Health

Material of BBQ rack is SUS304 compliant with EU standard. The coating of BBQ tray is food-graded Teflon which is resistant to high temperature. Food is avoided direct contact with charcoal fire. So no harmful substance is produced

BBQ Cramp

Made from practical material-stainless steel,
which guarantees a longer lifespan
Ergonomic handle, convenient to use, prevents
your hands from scalding with a good hand feeling.
